

Electric vehicle charging solutions for multi-unit residential buildings

Increase your property's value with future-proof amenities

Provide an **essential service** to EV-driving resident. Be ready to comply with emerging government regulations and **accommodate growing demand** for EV charging in residential areas.

Benefits of providing charging stations at multi-unit residential buildings

Increase the value of your property

Modernize and future-proof your building

Attract eco-conscious buyers and tenants

Complement other sustainable building practices

Why choose FLO?

FLO is Canada's largest electric vehicle charging network.

We operate **thousands** of charging stations from coast to coast, with an **industry-leading** reliability rate.

- **Turnkey, flexible** solutions for all types of properties
- **Real-time** charging station monitoring
- **Remote servicing** and troubleshooting
- **Simple** pricing and access control
- Detailed data reports **accessible at all times**
- **24/7 bilingual** support line for EV drivers
- **Scalable solutions** to meet current and future demand
- Connection with more than **80% of Canadian EV drivers**

Did you know?

On average, between **60** and **80%** of EV charging is done at home.

Customizable solutions for all types of properties

No matter what your requirements are, we offer flexible and affordable solutions for any situation.

Shared parking spaces: Offer shared charging stations to residents—free of charge or for a fee—in your building’s common parking area.

Parking areas with assigned spaces: Allow residents to have a dedicated charging station at their assigned parking space with no impact on other occupants.

“ We believe it’s important that our clients have the possibility of charging their electric vehicles, as they will become commonplace over the next few years. In a project such as Woodfield-Sillery, with its 63 housing units, electrical supply is very important and the issue of EV charging was crucial. FLO was able to solve our problem and provide 30 charging stations that have no negative impact on the building. ”

Éric Bilodeau
Bilodeau Immobilier, developer of Woodfield-Sillery condominiums in Quebec City
