

FLO Ultra™

The ultimate charging experience

- Safe and visible canopy lighting
- Easy to find

- Intuitive color LCD interfaces
- Flexible, secure payment options

- Modular components
- Easy to upgrade, redundancy for uptime
- Onboard computer and diagnostics

- Rugged aluminum enclosure
- Large doors front and back for easy serviceability

- Colored state of charge indicators

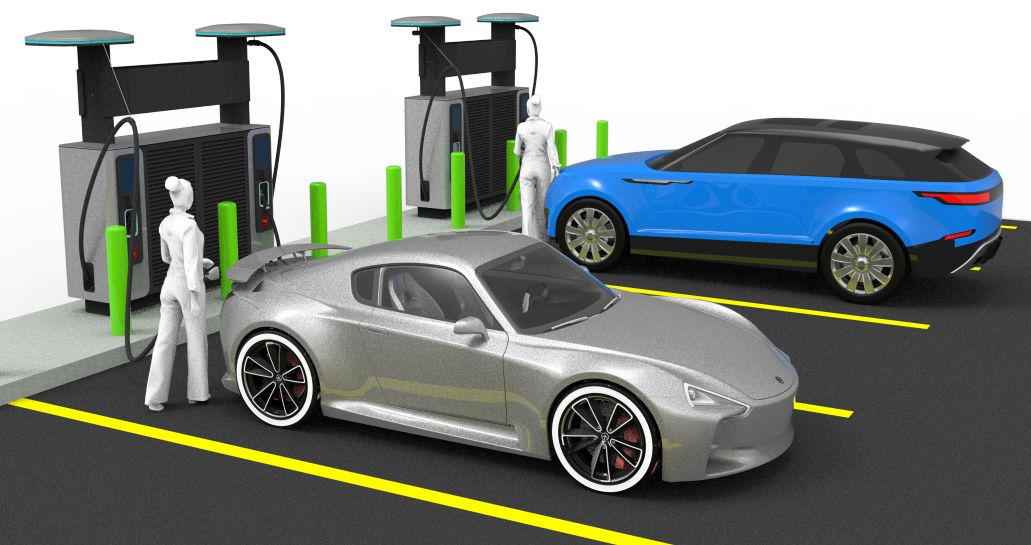

- Effortless, motorized cable management (patent-pending)

- Dual 160 kW chargers
- Up to 320 kW solo charge

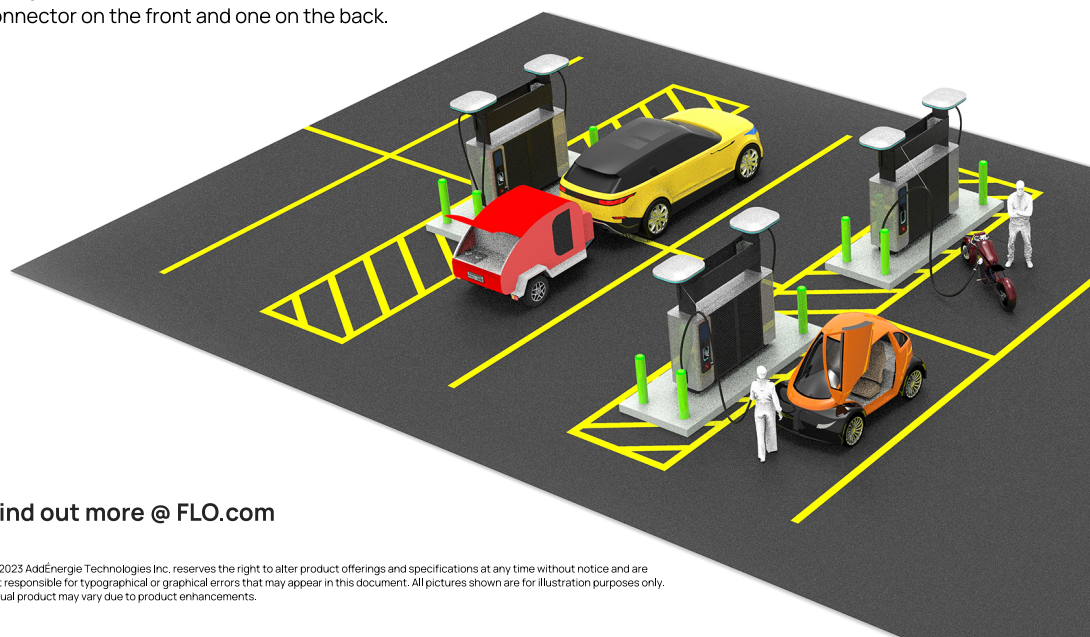

- CCS1 or CHAdeMO your choice
- Easy to retrofit in the field as needs change

Flexible parking configuration options

The **pull in parking configuration** is ideal for drivers to pull in or back in. The station will have the user interfaces and connectors on the same side.

The **pull through parking configuration** is ideal for drivers to pull alongside the station. In this configuration, there is one interface and connector on the front and one on the back.
